Alain teaching in Bolivia in 2019

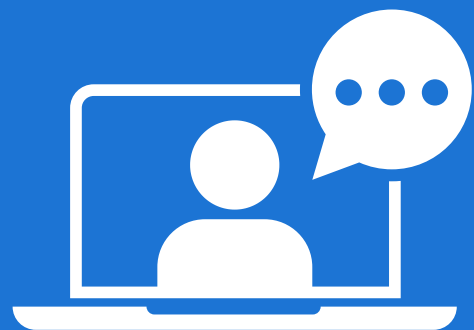

- **Why Angular Training?**

You will work directly with me and only me, Alain Chautard - you won't be shuffled off to junior employees or subcontracted labor.

I don't bill by the hour so you always know in advance what the financial investment will be for my intervention.

Through my training classes, conference talks, and webinars, I've taught Angular concepts to thousands of developers all around the world, on all continents but Antartica.

Google have awarded me the title of Google Developer Expert in Angular, which means I have access to the Angular team and insider information on all things Angular and the future of the Web.

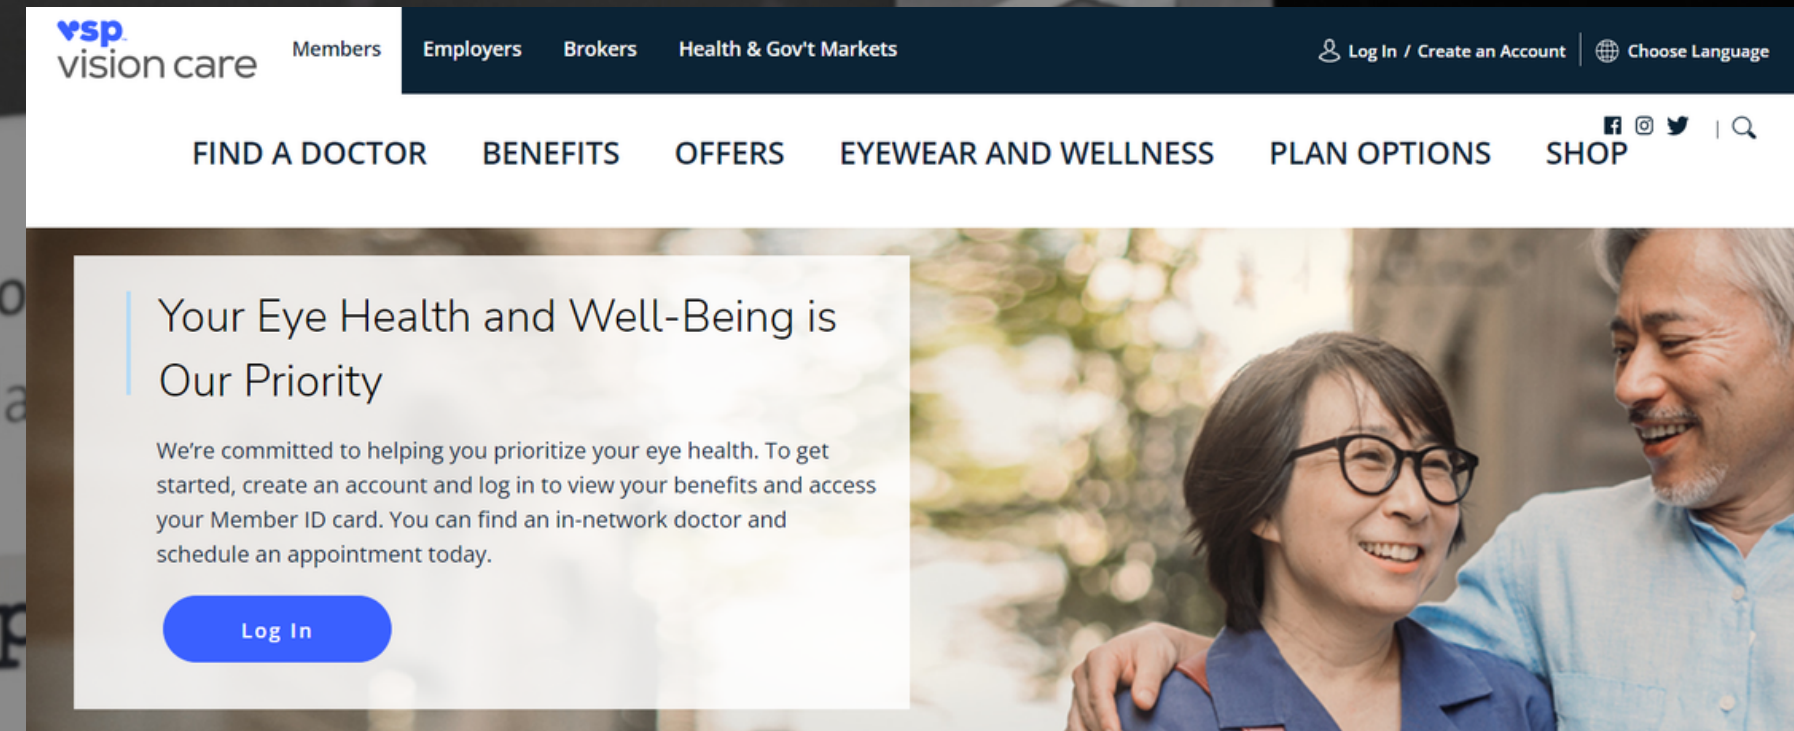

Largest vision care health insurance company in the United States, also operating in Australia, Canada, Ireland, and the United Kingdom.

Rancho Cordova, California, USA

“Congratulations on another successful Angular Training! I’ve heard great feedback from our employees. Can we schedule more classes next month?”

Ron E. - Manager, VC Applications

Impact and Outcome:

- Between 2017 and 2021, trained more than 50 developers in-person.
- Mentored the VSP.com team to help them rewrite the entire website with Angular.
- Consulted on performance, SEO, server-side rendering, and internationalization.

The applications built with the help of Angular Training are used by VSP members to file claims and access their benefits. They are a key part of VSP's daily worldwide insurance operations.

Federal Reserve Bank of San Francisco

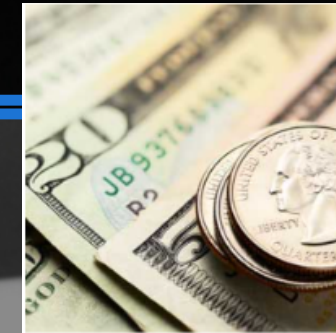

Central banking system of the United States. The Federal Reserve Bank of San Francisco is the federal bank for the twelfth district, which is the nation's largest by area and population.

San Francisco, California, USA

“This was by far the best training/consultation that I have been involved with.

Alain’s extensive knowledge, quick wit, and industry insight made for a truly invaluable and unforgettable experience.”

Lele G. - Lead Software Developer

FedCash® Services

The Federal Reserve Banks offer FedCash Services to help ensure that depository institutions have sufficient supplies of currency and coin to meet public demand. The Federal Reserve Banks act as a distribution center for the issuance of new currency designed and printed by the Bureau of Engraving and Printing (Off-site), and for new coins minted by the United States Mint (Off-site).

To drive improved efficiency, security and risk management of currency and coin processing, the Reserve Banks are advancing technology and delivering greater standardization of services across the Federal Reserve System. Today's FedCash Services are easy to use and provide consistent, timely and robust services and information.

Cash Visibility

Bringing greater transparency and efficiency to cash handling logistics through our work with financial institutions, armored carriers, U.S. merchants and GS1 US.

- Cash Visibility is a joint industry initiative aimed at applying package tracking technology to the cash supply chain logistics.
- FedCash E-Manifest Service is the Federal Reserve's service product for how Federal Reserve Banks will electronically process deposits and payments with industry partners by using industry supported data standards.

SPOTLIGHT

- Depositing and Ordering
- Contaminated Currency and Coin
- Deposit Visual Reference Guide
- FedCash® Cross-shipping Reports
- FedCash® Services Cash Highlights and Industry Outreach
- Operating Circular 2
- Business Continuity Guide

Impact and Outcome:

- Trained more than 80 developers in-person over 6 different sessions between 2017 and 2019.
- Mentored the FedCash team to rewrite several mission critical applications with Angular, all launched ahead of schedule.
- Consulted on security, performance optimizations, testing, continuous integration, and creation of reusable components throughout the Federal Reserve Bank.

The FedCash application is used to transfer millions of dollars between Federal and State agencies on a daily basis.

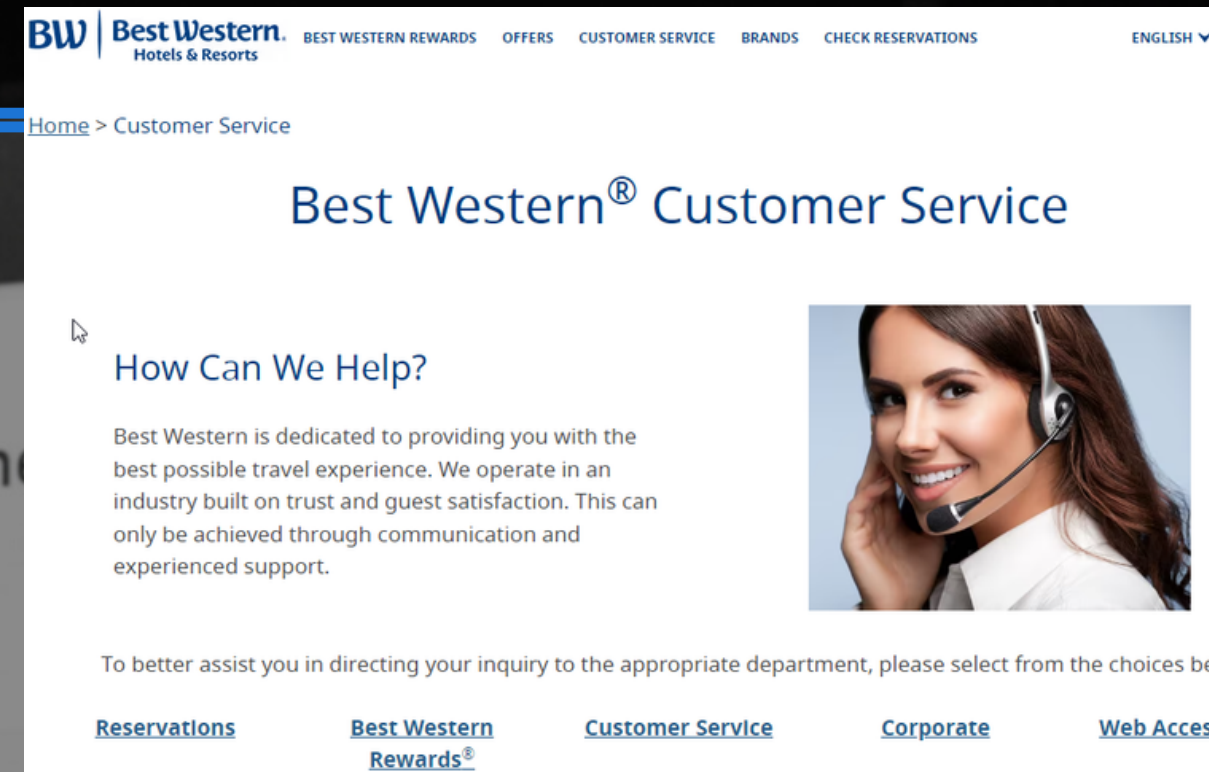

Hotel group of over 4,700 hotels and resorts worldwide, with more than 2,000 locations in North America.

Phoenix, Arizona, USA

“My developers spent 3 days with Alain and have been coding new features faster than ever before. I'm truly impressed.”

Carolyn K. - Manager | Business Technology

Impact and Outcome:

- Trained more than 30 developers in-person over 2 different sessions in 2019.
- Mentored the dev team to migrate the entire reservations portal from Angular 1 to Angular.
- Consulted on architecture, best practices, testing, continuous integration, and how to choose the right dependencies.

The reservations portal rewritten with Angular Training is used by Best Western call operators all day long to assist customers with booking and managing their reservations.

McKESSON

• Feedback

Deron W.

Lawrence Livermore National
Laboratory, Livermore, CA

"Simply the best and
most knowledgeable
instructor that I've
encountered.
Brilliant!"

Daniel T.

Lightsail, South Africa

"Alain got two server side
developers (including me) up
to speed on Angular so fast that
we were already contributing
code after one day of training.
He was a pleasure to work with
and a great asset to the team."

Lele Y.

Federal Reserved Bank, San
Francisco, CA

"It took Alain 15 mins
to help me solve a
problem I was stuck
on for two weeks!"
